DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 6/5/06 has been entered.

Claim Objections

2. Claim 1 is objected to because of the following informalities: in lines 8-9 of the claim the phrase "the control housing comprises a motor controller" should be "the control housing *comprising* a motor controller". In lines 9-10, the phrase "the motor controller comprises a manual switch means" should be "the motor controller *comprising* a manual switch means." (Italics added for emphasis, not necessary in the claim) Appropriate correction is required. Further, Claims 2 and 3 should not be presented as full-text with strike-through. Instead they can be simply presented as "2. (Cancelled)." Further, when the *entirety* of a claim is removed and entirely new text is presented (as in the current Claim 1), the new text can be presented as a new claim. In this case the new claim presented as Claim 1 could have been presented as new Claim 4, with Claim 1 cancelled as shown above.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 1 recites the limitation "the umbrella support structure" in lines 4-5 of the claim as well as "the canopy opening and closing means" in lines 6-7. There is insufficient antecedent basis for this limitation in the claim. Further, the phrase "the device having said motor housing and control housing and cable with detachably means for removal from a first patio umbrella and to detachably attach to a subsequent patio umbrella" is unclear. Favorable consideration would be given to the phrase "the device being adapted to be removed from one patio umbrella and detachable attached to another patio umbrella."

Allowable Subject Matter

5. Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Response to Arguments

6. Applicant should submit an argument under the heading "Remarks" pointing out disagreements with the examiner's contentions. Applicant must also discuss the

Art Unit: 3636

references applied against the claims, explaining how the claims avoid the references or distinguish from them.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hung teaches an umbrella motor.
